Scott,

Good to see you post-DSDA vendor show! I am really glad to see this new oxygen product available.

Here at FBC Dallas we know that we need medical oxygen. Our new Oxysure product serves to fill that need and also eliminates the hassles and worries of making sure that tanks are filled and ready, regulators serviced, new masks on hand and all the tanks themselves having current hydrostatic tests.

I am sure we will be purchasing additional units in the near future.

Thanks again

Rev. Ronald H. Cresswell
